

From Research to Enterprise: Industry Collaboration, Spin-Offs and Venture Capital

Domenico Nesci - *Deep Ocean Capital SGR*

The talk will explore the critical steps to transform research into scalable enterprises, drawing from his experience in venture building, private fundraising, and commercializing deep tech solutions. He will also introduce Deep Ocean Capital's investment strategy, highlighting how they identify and empower high-potential startups in the deep tech ecosystem. Attendees will gain insights into industry collaboration models, spin-off dynamics, and the role of VC in accelerating innovation from lab to market.
