

Biography

Colonel Edoardo Cavaliere d'Oro works for the Italian National Fire and Rescue Services since 2004 where he heads the CBRN unit in the region of Lombardy from the Milan headquarters since 2013.

Edoardo, graduated in nuclear engineering at the Polytechnic of Milan and then specialized at the Massachusetts Institute of Technology in Boston in the areas of risk assessment applied to nuclear non proliferation, and in the area of management and system design. Later on, he graduated at Tor Vergata University in Rome obtaining the certification as advisor in civil protection against CBRN events and a PhD.

Since 2018, he is nominated as national expert in CBRN and sits into a panel of national experts at the Directorate General European Civil Protection and Humanitarian Aid working on the design of new CBRN international modules for emergencies.

Edoardo is the author of various publications in the field of risk assessment, of the NBCR and of the use of novel technologies for emergency management. He is currently coordinating the design of a 26M euros project aimed at developing a novel capacity to respond to high impact CBRN events in Europe and worldwide.
