Loredana DE BARTOLO – CV

Loredana DE BARTOLO(http://orcid.org/0000-0003-3774-9114) is Research Director at CNR-ITM. She received her PhD in Chemical Technologies and New Materials from University of Calabria and a postdoc research fellowship by the Alexander Von Humboldt Foundation at LIBAO (Hannover, Germany). Her research experiences are in the field of membrane science and engineering, particularly bioartificial membrane systems and membrane bioreactors for tissue engineering and regenerative medicine. She has coordinated numerous European, national, and international projects, serves on international scientific committees and editorial boards, and has authored more than 200 scientific publications.
