Alyssa Mancini, born in Colleferro (RM) on 03/09/1999.
Diploma obtained in Colleferro at the technical chemical institute ITIS STANISLAO CANNIZZARO.
Bachelor's degree in chemistry at the Sapienza University of Rome, under the supervision of Professor Andrea D'annibale, with a thesis entitled: Isolation and spectroscopic characterization of a mixture of capsaicinoids.
Master's degree in industrial chemistry A.R.E.S. (environment, resources, energy and safety) obtained on 21/10/2024 at the University of La Sapienza, with a 110/110 vote with honours, discussing the thesis by title " Recycling of lithium ion batteries by means of hydro-metallurgical re-synthesis processes: use of mixtures of electrodic powders with different chemists, under the supervision of Professor Francesca Pagnanelli.
Currently enrolled in the PhD course in Chemical Processes for Industry and the Environment at the Sapienza University of Rome.
