Working at National Institute of Oceanography and Applied Geophysics – OGS since August 2003, holding various positions. Executive Technologist since 2020, currently coordinating OGS Research Infrastructures Office, supporting colleagues in management and implementation of Research Infrastructures and being the OGS reference person towards Ministries and the European Commission for subjects related to Research Infrastructures.

Appointed by Decree 248 of 04/09/2025 of the Minister of the Environment and Energy Security (MASE), as a voting member, acting as Vice President, of the CCS Committee, representing the Ministry of the Environment and Energy Security (MASE). The Committee for the Development of Carbon Capture and Geological Storage (CCS Committee), serving a five-year term, is responsible for supporting the relevant MASE Directorate General in CCS related subjects, including issuing licenses and authorizations for CO₂ storage.

Since January 2026, Chair of ECCSEL ERIC (European Carbon Dioxide Capture and Storage Laboratory Infrastructure) General Assembly. Vice-Chair from June 2017 to September 2021, and from June to December 2025.

From June 2017 to September 2021, and from December 2024 to December 2025, Italian scientific representative in ECCSEL ERIC General Assembly, appointed by the Italian Ministry of University and Research (MUR), and ECCSEL ERIC Operations Centre in-kind collaborator.

Played an active role in the preparatory phases and set up of ECCSEL ERIC, since 2010. Took part at the negotiations among founding Members for ECCSEL ERIC set up.

From 16/10/2021 to 30/09/2024, Seconded National Expert (Policy Officer) at the European Commission, DG RTD, unit A4 “Open Science and Research Infrastructures”, Research Infrastructures sector.

Management of ERICs and related administrative procedures on behalf of the European Commission. Reference person within the European Commission for the ERIC Committee and the ERIC Forum. Representative of the European Commission in the Energy Strategy Working Group of ESFRI.

Actively involved in several national and European projects on CCS and Research Infrastructures, including their preparation, management, and participation.

Principal Investigator of “NICE-Italy”, 16 M€ project funded by MUR, aimed at the implementation of the Italian National Node of ECCSEL ERIC.

She holds a Master’s degree in Environmental Engineering, Vocational qualification (Engineer), a PhD in Applied Geophysics and Hydraulics, a Professional Master’s degree (II level) in Open Innovation and Knowledge Transfer (MIT) and a Professional Master’s degree (II level) in Management of Research Infrastructures (EMMRI).
